

## RESEARCH AND ACADEMICS- An Enigma but not a stigma

From the Desk of Founder & CEO- Mohammad Akheel

Greetings!!!

It gives us an utmost pleasure to welcome you all in our inaugural issue of “INTERNATIONAL ARCHIVES OF HEAD & NECK SURGERY”. The main idea of establishing this journal is to share knowledge about various aspects of the head oncology and promote an instinct for publications among students, clinicians and researchers.

The team of editorial board have been constructed in such a way which has various great personalities who are maestros in their respective field and invite national and international specialist who wish to join our editorial board. We have a bunch of reviewers who are experts and provide a result in a short span of time. This journal will publish different aspects of surgical oncology, radiation oncology, medical oncology, medical and paramedical sciences. We welcome all types of article like Original Articles, Case Reports, Systematic Reviews, Review Articles, Short Communications and Letter to Editor from both physicians and surgeons.

The main mission of this new journal is to provide a platform for prompt and quick publication of new concepts that will lead to an improvement of health care for individuals and various groups throughout the world. So we request all the research maniacs and publication maniacs to take complete advantage of this new platform which we are providing to publish your valuable research work and let it get recognized by the world. At last, we would like to thank our entire editorial committee for their contribution and hard work.
